

Concept Medication Carts

LTC Medication Dispensing Solutions

The collective input of healthcare providers is the design foundation of every Artromick Concept Medication Cart...ensuring insightful function and complete flexibility for a wide selection of medication control systems.

Concept Features

Choose from 3", 6" or 9" drawers and/or a full range of cassette sizes will maximize your medication capacity and organization. Single or dual-sided patient drawer access supports the highest patient capacities and the most efficient drawer configurations.

- Concept's CartGuard™ lock system provides at-a-glance security status and one-step locking.
- Over 1/2" in thickness, Concept's Hard Surface Top Cap will steadily withstand pill crushing and retain spills with its raised edge.
- Dual-sided cart drawers are one-piece seamless construction which provide unequalled strength and durability. Single-sided cart drawers feature sturdy full-extension guides that provide reliable performance.
- All Concept drawers are designed to carry a heavy load and feature an inventive slot-lock catch to secure even partially closed drawers.
- Complete flexibility in configuration and patient capacity is assured with 3 cart heights and your choice of single-sided, dual-sided or full-extension drawers.
- The Multi-Flex Accessory Track permits the attachment of virtually any accessory to the cart, now and in the future.

Accessories & Options

Auto Relocking

Narcotic Lids
